I am outraged that you would even consider touching anybody's IRA or 401K. If you are seeking to inspire open insurrection, that would be a good way to provoke one. I would suggest in the strongest possible terms that you not even think about touching my IRA or my wife's. The people in this country are already furious at the incompetence and corruption in Washington. And it wouldn't take much more to touch off a firestorm that would rip all of you out of your jobs.

Sincerely,

Ray Bossik
